PROFILE AT A GLANCE

Seasoned and results-oriented **Lead Software Engineer** with over **9+ years** of hands-on experience in architecting, developing, and deploying scalable enterprise-grade web applications. Proven expertise across full-stack development, cloud computing (Microsoft Azure), microservices architecture, and technical team leadership. Demonstrates strong technical ownership in resolving complex production issues, optimizing high-latency database operations, and maintaining high software reliability. Skilled in driving AI tool integration (GitHub Copilot, Claude) to elevate development efficiency, alongside mentoring engineering cells, conducting rigorous code reviews, and enforcing ADA compliance and OIDC security standards.

AREAS OF EXPERTISE

Core Languages & Frontend	Angular (Advanced), JavaScript, TypeScript, C#, HTML5, CSS3, Material Design, Konva.js
Backend & Frameworks	ASP.NET Core, ASP.NET MVC, RESTful APIs, Node.js, Microservices Architecture
Databases & Caching	Microsoft SQL Server, MongoDB, Redis Cache
Cloud, DevOps & Tools	Microsoft Azure, Azure Data Factory (ADF), Azure Service Bus, Docker, Kubernetes, Camunda
Integrations & AI Tools	Twilio API, DocuSign, NetSuite, Jira Automation, Snyk, SonarQube, GitHub Copilot, Claude Code
Practices & Governance	Unit Testing, SME Code Reviews, ADA Compliance, OIDC Authentication, Agile Methodologies

PROFESSIONAL EXPERIENCE

Ansira (formerly BrandMuscle India Pvt. Ltd.) Bengaluru, India | Oct 2021 – Present

Lead Software Engineer (Promoted May 2025) | Formerly Principal Software Engineer

- **Product Feature Innovation:** Engineered interactive frontend modules including Text Linking, Flexi Fit, Logo Locker, and Menu Maker in Palette Workspace using Angular and Konva.js, expanding design flexibility and UI responsiveness.
- **System Architecture & Performance Optimization:** Architected and deployed a standalone Image Processor utility featuring independent background jobs/triggers, successfully resolving critical memory failure issues and high search page load latency in Digital Asset Management (DAM).
- **Workflow & Integration Automation:** Streamlined client onboarding and campaign operations by building Azure Data Factory (ADF) pipelines, single-thread Azure Service Bus background service workers, and automated Jira ticket workflows.
- **Security & Compliance Governance:** Audited codebases via Snyk and SonarQube to eliminate critical security vulnerabilities, upgraded enterprise services to .NET 6.0, and enforced OIDC authentication and ADA web compliance standards.
- **Technical Leadership & AI Driving:** Acted as Subject Matter Expert (SME) for database integrations and code review governance. Introduced corporate utilization of AI assistant tools (GitHub Copilot and Claude) and mentored junior engineers on coding best practices.

Mialo Technologies Pvt. Ltd. Bengaluru, India | Dec 2020 – Sep 2021

Senior Software Engineer

- Developed and delivered robust full-stack enterprise software components utilizing ASP.NET Core and modern Angular frontend frameworks with MS SQL Server databases.
- Collaborated with cross-functional product cells to translate business requirements into clean RESTful web services on schedule.

Gateway Group of Companies (NINtec Systems Ltd.) Ahmedabad, India | Jul 2018 – Dec 2020

Senior Software Engineer

- **Digital Transformation Leadership:** Executed an on-site technical discovery workshop in Mexico to modernize legacy workflows, directly driving a 30% to 70% increase in active client revenue.
- **Patient 360 Healthcare Portal:** Unified multi-source claims records (EHR, DPC, BCDA) into a single-page view doctor portal to aid clinical decision-making.
- **Automotive SaaS Platforms:** Architected a multi-tenant cloud-based Vehicle Insurance Comparator SaaS on Azure, integrated third-party calculation engines (VIN/License API), and built mobile/web endpoints for Automotive Leasing Suite.

Software Developer

- Engineered RESTful web API endpoints in C# / .NET for mobile and web clients; modeled interactive client UI screens in Angular, JavaScript, HTML, and CSS.
- Mentored engineering interns on tech stack adoption, project debugging, and coding standard adherence.

CK-IICT Pvt. Ltd.

Ahmedabad, India | Jun 2015 – Oct 2016

Developer

- Constructed relational business logic architectures by designing MS SQL Server database schemas, tables, and stored procedures under ASP.NET MVC architecture.

ACHIEVEMENTS & CERTIFICATIONS

- **Claude Certified Architect - Foundations:** Certified in AI architecture principles and prompt engineering workflows.
- **Spark Award (2018):** Awarded at NINtec Systems Ltd. for outstanding performance during client digital transformation delivery in Mexico.
- **Employee of the Year (2017):** Honored at Samarpan Infotech for technical reliability and exceptional contribution.
- **Microsoft Student Partner (2014):** Nominated for technical advocacy and community leadership during undergraduate studies.

KEY PROJECTS

Palette Workspace & Image Processor Utility*Technologies: Angular, ASP.NET Core, Konva.js, Azure Data Factory, Redis, Snyk*

Developed interactive design canvas tools (Text Linking, Flexi Fit, Menu Maker) and engineered a background Image Processor service that eliminated memory crashes and boosted DAM media retrieval speed by 40%.

Patient 360 Healthcare Diagnosis Portal*Technologies: ASP.NET Core, Angular, MS SQL Server, REST APIs (EHR / DPC / BCDA)*

Built a unified healthcare intelligence platform consolidating multi-source medical claims data into a single-page doctor dashboard for rapid clinical history evaluation.

Vehicle Insurance SaaS & Automotive Suite*Technologies: C#, .NET, Azure SaaS, DocuSign API, Twilio API*

Engineered a cloud-based multi-tenant insurance comparator SaaS on Azure alongside leasing workflow endpoints for dealers, customers, service providers, and drivers.

EDUCATION

Bachelor of Engineering (B.E.) in Information Technology — Gujarat Technological University (HGCE) | **2011 – 2015** (CGPA: 7.25)
